Project Development Phase
Delivery Of Sprint - 1

Project

Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

Team ID : PNT2022TMID06215

Team leader : A.Mohammed zubairali

Team member : S.Mohammed Suhail Manas

Team member : S.Bayas Abdul Rahiman

Team member :SB.Shajahan

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create product backlog and sprint schedule

Sprint	Functional Requirements (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	2	High	A.Mohammed zubairali S.Mohammed Suhail Manas S.Bayas Abdul Rahiman SB.Shajahan

Sprint-1		USN-2	As a user,I will receive confirmation Email once I have registered for the application	1	High	A.Mohammed zubairali S.Mohammed Suhail Manas S.Bayas Abdul Rahiman SB.Shajahan
Sprint-1	Login	USN-3	As a user,I can log into the application by entering Email and password	1	High	A.Mohammed zubairali S.Mohammed Suhail Manas S.Bayas Abdul Rahiman SB.Shajahan

Project Tracker, Velocity & Burndown Chart: (4 Marks)

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	6 Days	24 Oct 2022	29 Oct 2022	20	29 Oct 2022

Velocity:

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

Average Velocity = Story Points per Day

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

Sprint Duration = Number of (Duration) days per Sprint

Velocity = Points per Sprint

$$AV = \frac{20}{6} \approx 4$$

Therefore, the **AVERAGE VELOCITY IS 4 POINTS PER SPRINT**

Burndown Chart:

A burndown chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.

Sprint Number	Day 0	Day 1	Day 2	Day 3	Day 4	Day 5	Day 6
Sprint-1	20	0	10	5	3	1	1
